

MORNING MEETING - 29 June 1979

The DDCI was in the chair.

1. I called attention to the potential dangers arising out of the Pakistani nuclear program. The more attention is called to it, the more alarmed the Indians will become. Given that they have fought two wars with Pakistan in the last 15 years and that the military balance is even more in their favor than before, they will be strongly motivated to prevent Pakistani acquisition of a nuclear weapons capability by military force.
