Subject: Everglades FOIA

Hi Carol. Here is my request for information pertaining to the Everglades for my book. As you know, General Flowers has been pretty insistent that I should have access to information about the Corps, so I hope this can be expedited. And for what it's worth, I'm not fishing for scandal here; I'm looking for a timeline of what happened--and, of course, what folks thought about it.

Under the Freedom of Information Act, I hereby request: all e-mails, documents, memoranda, etc., pertaining to the Florida Everglades and its restoration, between January 1, 1993, and December 31, 2002. This would include any documents readily available, as well as all e-mails and other correspondence related to the Everglades either to or from: Col. Terry Rice, Richard Bonner, Stuart Appelbaum, Col. Joseph Miller, Col. James May, and Gen. Joe Ballard. "Related to the Everglades" includes issues relating to restoration, CERP, Modified Water Deliveries, Lake Okeechobee, the South Florida Ecosystem Restoration Task Force, the Governor's Commission for a Sustainable South Florida, the Florida sugar industry, etc.

Thanks so much for your cooperation. Again, Carol, I'm not doing this to find out dirt about people's personal lives or anything like that. So if there's anything I can do to expedite this, please let me know at 202-872-4247. I can also arrange discussions with Eric Lieberman, of The Washington Post's general counsel's office.

Best,

Michael Grunwald
