MEMORANDUM

To: SPS - Mr. Polyzoides

Please add to your memorandum for the record for Park on today's flap on the testimony bearing on Japanese peace feelers, that I outlined in detail the problem to Bill Jackson in the absence of General Smith, and pointed out that if the Secretary were further queried, he might be forced into a statement of inability to disclose further information and that obviously the Department would want the consultation and backing of General Smith as Chairman of USCIB, if not of USCIB itself.

Fisher Howe
Acting

FYI, Bob Barnes told me Saturday morning that the recorder came in following Hickenlooper's statement to ask Bob what Hickenlooper might have said -- something about "intercepts." Bob says he didn't and Davis didn't help him, so the recorder had to go off and just refer to "communications!"

F.H.
