BRAZIL’S FOREIGN POLICY: PRESENT AND FUTURE

A política externa do Brasil: Presente e Futuro is an excellent collection of insightful essays by six former high-ranking Brazilian diplomats and an experienced journalist. These essays, carefully written without any restriction on their content, reflect the personal views and experiences of the seven authors. The collection gives a good insight into the internal discussions of Itamaraty, into Brazil’s principal diplomatic objectives during the past several decades, and into the writers’ perception of Brazil’s success in achieving those objectives. Each of the six diplomats played a major role setting those objectives and working to reach them. Thus they were closely identified with them and, understandably, want Brazil to continue striving to reach them.
