The Faculty Senate

The Faculty Senate will meet on Friday, October 11, 2013, at 2:10 p.m. in the State Room, 1957 E Street, N.W., 7th Floor

AGENDA

1. Call to order

2. IN MEMORIAM

Frederick C. Kurtz, Professor Emeritus of Accountancy

3. Approval of the minutes of the meeting held on September 13, 2013
   (minutes to be distributed)

4. A RESOLUTION TO AMEND THE POLICY ON CONFLICTS OF INTEREST AND COMMITMENT FOR FACULTY AND INVESTIGATORS (13/2)
   Professor Charles A. Garris, Jr., Chair, Committee on Professional Ethics and Academic Freedom (the Resolution and its attachment are included with this agenda)

5. Introduction of Resolutions

6. Overview of the University’s initiatives in China: Provost Lerman

7. GENERAL BUSINESS

   a) Election of faculty members to Faculty Senate Standing Committees:
      Athletics and Recreation: Beverly Westerman, Acting Chair

   b) Annual Reports of Senate Standing Committees
      (The 2012-13 Annual Report of the Honors & Academic Convocations Committee is attached.)

   c) Report of the Executive Committee:
      Professor Scheherazade Rehman, Chair

   d) Provost’s Remarks

   e) Chair’s Remarks

8. Brief Statements (and Questions)

9. Adjournment

Elizabeth A. Amundson
Elizabeth A. Amundson
Secretary
A RESOLUTION TO AMEND THE POLICY ON CONFLICTS OF INTEREST AND COMMITMENT FOR FACULTY AND INVESTIGATORS (13/2)

WHEREAS, The current Policy on Conflicts of Interest and Commitment for Faculty and Investigators was approved by the Faculty Senate of The George Washington University on January 21, 2005, and by The George Washington University Board of Trustees February 11, 2005; and,

WHEREAS, Upon review by the Division of Grants Compliance and Oversight, Office of Policy for Extramural Research Administration, Office of Extramural Research, National Institutes of Health, officials made recommendations for amending the GW Policy in order to insure compliance with NIH’s revised 2011 conflict of interest regulations; and,

WHEREAS, The proposed amendments appear to be minor clarifications of existing policy and do not change the substance of our approved policy; and,

WHEREAS, The GW Administration has requested that we expedite approval of these amendments to avoid further audit by NIH;

NOW, THEREFORE, BE IT RESOLVED BY THE FACULTY SENATE OF THE GEORGE WASHINGTON UNIVERSITY

That the amendments shown in redline in the attached “POLICY ON CONFLICTS OF INTEREST AND COMMITMENT FOR FACULTY AND INVESTIGATORS” be accepted as GW Policy.

Faculty Senate Committee on Professional Ethics and Academic Freedom
September 30, 2013
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT FOR FACULTY AND INVESTIGATORS

Policy Statement

Faculty and investigator activities shall be conducted in a manner that avoids inappropriate conflicts of interest and commitment. Conflicts of interest may occur when there is a divergence between a Faculty Member's private interests and professional service to the University. The goal of the University is to establish boundaries within which conflicts of interest are tolerable and beyond which they are intolerable; processes for review of actual and apparent conflicts of interest; and appropriate mechanisms for management of tolerable conflicts of interest.

Reason for Policy/Purpose

This Policy is designed to assist faculty and investigators and the University in the identification of potential and actual conflicts of interest and to support compliance with applicable government regulations. For purposes of this Policy, the terms "Faculty" and "Faculty Member" mean those individuals defined in the Faculty Code, pages 1 and 2, section I, subsection B, items 1, 3, and 4, and the term Investigator refers to any person responsible for the design, conduct or reporting of externally sponsored University research, including without limitation Research Scientists, Senior Research Scientists and Lead Research Scientists.

POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

Policy/Procedures

I. GENERAL STATEMENT

A. Purpose and scope of policy.

This Policy is designed to assist faculty and the University in the identification of potential and actual conflicts of interest and to support compliance with applicable government regulations. For purposes of this Policy, the terms "Faculty" and "Faculty Member" mean those individuals defined in the Faculty Code, pages 1 and 2, section I, subsection B, items 1, 3, and 4, and the term Investigator refers to any person responsible for the design, conduct or reporting of externally sponsored University research, including without limitation Research Scientists, Senior Research Scientists and Lead Research Scientists.

B. Underlying principles.

The Faculty Code states, "faculty shall have a primary responsibility of devoting their time, thought, and energy to service of the University." Of no less importance is a Faculty Member's responsibility to further his or her own professional development and the goals of his or her professional discipline. Normally a Faculty Member's participation in activities of governmental, industrial, and professional institutions is consistent with academic interests of the University and the Faculty Member.

Conflicts of interest may occur when there is a divergence between a Faculty Member's private interests and professional service to the University. Conflicts of interest differ in nature and degree. The goal of any institution cannot be to eliminate all conflicts of interest. Rather it should be to establish boundaries within which conflicts of interest are tolerable and beyond which they are intolerable; processes for review of actual and apparent conflicts of interest; and appropriate mechanisms for management of tolerable conflicts of interest.

Faculty activities shall be conducted in a manner that avoids inappropriate conflicts of interest. As specifically described in Sections II and III, conflicts of interest may require review and oversight when:

1. the University is deprived of appropriate (compensated) time and effort of the Faculty Member due to external commitments (for example, when a Faculty Member exceeds the limitations of the "one-day-a-week" rule set forth in Section
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

II.B.; or accepts obligations that may frequently conflict with scheduled classes or other academic responsibilities);

2. substantial use is made of human and material resources of the University for non-University purposes (for example, when a Faculty Member or Investigator inappropriately uses University equipment, supplies, personnel, and other facilities and resources for activities that yield financial benefit to the Faculty Member, Investigator or a third party; or receives outside financial incentives that distort scholarly activity or the shaping of academic goals; or facilitates the erroneous impression that the University endorses or is connected to an outside activity);

3. the Faculty Member's or Investigator’s extra-University financial involvements affect, or reasonably appear to have a significant potential to affect, his or her academic responsibilities, or compromise basic scholarly activity or freedom of action (for example, when a Faculty Member or Investigator hires a family member; or enters into an agreement to limit or delay the free publication, or access to the results, of sponsored research, other than according to normal University practice (as in the case of patents); or has a reportable interest in a transaction described in Section III.B.; or when a Faculty Member, Investigator or his or her immediate family member is a founder, board member or equity stakeholder in a company sponsoring the Faculty Member’s or Investigator’s research); or

4. the University is deprived of appropriate potential financial gain (for example, when a Faculty Member or Investigator inappropriately seeks to obtain research support in a manner that substantially undermines responsibilities of the Office of the Vice President for Research; or has an outside commitment that provides an individual or organization, other than the University, intellectual or tangible property rights, such as patent ownership or license rights, that ought to accrue to the University).

C. Nature of policy.

Because precise boundaries are difficult to establish without reference to specific facts, it is prudent to establish a flexible, not formulaic, approach based on principles of fairness and trust. Fairness is advanced by policies firm enough to provide clear guidance and consistency, yet sufficiently flexible to accommodate diversity of discipline and unique circumstance. Trust is advanced by appropriate disclosure and discussion. In light of these principles, this Policy has two essential elements: (1) Faculty are provided a mechanism to report and seek guidance concerning significant actual, potential, and apparent conflicts of interest, thus to ensure appropriate disclosure and that the interests of the Faculty Member and the University are well served. To promote fairness, all faculty are required to report, as set forth in this Policy. (2) Each school shall administer in accordance with this Policy: a procedure for annual Faculty disclosure of reportable actual, potential, and apparent conflicts of interest; disclosure by Faculty of
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

information pertinent to such conflicts; and a procedure for review and resolution of any lack of agreement arising from disclosure of such conflicts.

D. Obligation of University.

In its promotion and administration of research and otherwise, the University shall be sensitive to prospective conflicts of interest involving Faculty and Investigators, including, for example, with respect to (1) the independence of Faculty and Investigators to determine subjects of research and scholarship and (2) enabling Faculty and Investigators to report accurately their time and effort.

II. CONSULTING, OTHER PROFESSIONAL ACTIVITIES, AND RESEARCH SUPPORT FROM OUTSIDE ENTITIES

A. The merit of external involvements.

Increasingly, industry and government rely on university faculties for advice. Such practical contributions from higher education institutions to the nonacademic world have provided many Faculty Members the opportunity to use their knowledge and talents constructively, to strengthen their competence through a greater variety of professional experiences, to enhance the Faculty Member's and the University's scholarly reputation, and to serve the public interest.

B. "One-day-a-week" rule.

A full-time Faculty Member may spend the equivalent of up to one working day a week on average during the academic year on outside consulting and other professional activities, provided such commitments do not interfere with University obligations. Payments for such activities are negotiated by the Faculty Member directly and do not involve the University. This privilege is not extended to research Faculty Members paid wholly from research grants or contracts, or other physician Faculty Members whose University contracts preclude such activities.

C. Administration of the rule.

The department chair (or, where applicable, head of other pertinent academic unit) and the dean are responsible for ensuring compliance with this Policy and that no Faculty Member abuses this privilege. In particular, Faculty involved in private income-producing activities shall not, absent prior written approval by the Provost and Executive Vice President for Academic Affairs ("Provost and Executive Vice President"), for such purposes substantially utilize University space or resources or the services of secretaries or other University staff, provided that this Policy does not prohibit incidental use of personal office space, local telephone, library resources, and personal computer equipment.
D. Need for written sponsored-research agreements.

Before the University enters into any arrangement in which an entity outside the University provides support for research, a clearly stated written agreement should be negotiated that sets forth the Faculty Member's, the Investigator's, the University's, and the external entity's expectations. Funding amounts and other financial arrangements, realistic timetables for mutually agreed objectives, and intellectual property agreements should be in writing before work begins. If the research project involves or may potentially involve a product or service with commercial potential, that prospect must be made known to all parties in advance.

III. REPORTABLE INTERESTS

A. Reportable interests (i.e., "significant financial interests") defined.

This Section III and the disclosure requirements contained in Section IV apply only to transactions and relationships, described in Section III.B, that involve a Faculty Member, Investigator or immediate family member, the University, and an outside entity. For purposes of this Policy:

- "Immediate family member" means spouse/domestic partner and dependent children.
- "Significant financial interest" means (1) any stock, stock option, or similar ownership interest in the outside entity by the Faculty Member or Investigator that, alone or together with interests of immediate family members, is valued at least at the lesser of $10,000 or five percent of the total ownership interests in the outside entity, excluding any interest arising solely by reason of investment by a mutual, pension, or other institutional investment fund over which neither the Faculty Member, Investigator nor an immediate family member exercises control; or (2) receipt, individually or collectively by a Faculty Member, Investigator and immediate family members, of, or the right or expectation to receive, income, whether in the form of a fee (e.g., consulting), salary, allowance, forbearance, forgiveness, interest in real or personal property, dividend, royalty derived from the licensing of technology or other processes or products, rent, capital gain, real or personal property, or any other form of compensation, or any combination thereof, that over the last 12 months exceeded or over the next 12 months is expected to exceed $10,000 in income of all types; or (3) that the Faculty Member, Investigator or immediate family member provides services as a principal investigator for, or holds a management position in, an outside entity.  

---

1 Principal investigators should take the lead in identifying those individuals in their organizations who are "responsible for the design, conduct or reporting" of externally sponsored University research and therefore are Investigators potentially subject to conflict of interest disclosure requirements. Such individuals may not be limited to the PI and/or co-PI, but could include, depending on the circumstances, persons such as technicians, other staff members and unpaid lab workers.

2 "Significant financial interest" does not include: (1) salary, royalties or other remuneration from the University; (2) income from seminars, lectures or teaching engagements sponsored by public or non-profit entities; or (3) income from service on advisory committees or review panels for public or non-profit entities.
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

B. Transactions covered.

Before the University enters into any transaction potentially presenting an apparent or actual conflict of interest, and annually thereafter, a Faculty Member or Investigator must submit to the school dean a written disclosure of any current or pending relationship of such Faculty Member, Investigator or immediate family member with the outside entity, the relationship of the proposed University activity to the entity, and, if desired, means by which the Faculty Member or Investigator will manage his or her University role in relation to the Faculty Member's, Investigator's or immediate family member's role or interest in the entity. The Disclosure Forms annexed to this Policy pursuant to Part IV.A.1. provide descriptions of covered transactions for which Faculty Members and Investigators must make disclosure. Some examples of such covered transactions are:

1. Gifts to the University of cash or property that will be under the control, or will directly support the teaching or research activities, of a Faculty Member or Investigator from an outside entity in which the Faculty Member, Investigator or immediate family member has a significant financial interest;

2. Sponsored-project proposals as to which the involved Faculty Member, Investigator or immediate family member has a significant financial interest in the proposed sponsor or in a proposed subcontractor, vendor or collaborator;

3. University technology-licensing arrangements with an outside entity in which the Faculty Member, Investigator or immediate family member has a significant financial interest;

4. Procurement of materials or services from an outside entity in which the Faculty Member, Investigator or immediate family member has a significant financial interest, if the Faculty Member or Investigator is personally involved in or has the ability to influence the formation or implementation of the procurement transaction; and

5. Submission to an external sponsor of an application for funding of University research in the design, conduct or reporting of which a Faculty Member or Investigator plans to participate that would reasonably appear to affect the Faculty Member's, Investigator's or immediate family member's interest in an outside entity or would reasonably appear to affect the entity's financial interests.

A Faculty Member or Investigator who seeks funding from or who works on a project funded by an external sponsor must comply with that sponsor's additional requirements, if any, related to disclosure, management, and avoidance of conflicts of interest. (See Section III.D regarding sponsored research and Appendix C regarding Public Health Service (“PHS”) research proposals and awards.)
C. Ongoing and elective disclosures.

In addition to disclosures required under Section III.B., Faculty members and Investigators shall disclose to the department chair (or, where applicable, head of other pertinent academic unit) or dean on an ad hoc basis current or prospective situations that are likely to raise questions of reportable conflict of interest under this Policy, including any new reportable significant financial interests, as soon as such situations become known to the Faculty Member or Investigator. In addition, a Faculty Member or Investigator may elect to disclose voluntarily other financial benefit to the Faculty Member, Investigator or immediate family member, related to an existing or contemplated relationship between the University and an outside entity with which the Faculty Member, Investigator or immediate family member is or expects to be involved, if the Faculty Member or Investigator deems it desirable to seek review in accordance with the procedures specified in Section IV.

D. Additional reporting procedures for research.

Consistent with the requirements of external sponsors, including federal government agencies, this Policy is designed to identify potential, actual and apparent conflicts of interest and support compliance with applicable rules and regulations. A number of external organizations, in particular PHS and the National Science Foundation (“NSF”), have developed policies requiring the disclosure of financial conflicts of interest.

1. PHS requirements

Appendix C of this Policy sets forth additional requirements that apply to PHS research proposals and awards. Investigators who plan to participate in PHS-funded research or who are engaged in PHS-funded research must comply not only with this Policy but also with Appendix C.

2. NSF requirements

Under NSF rules, a Faculty Member or Investigator utilizing or seeking NSF funding has a potential conflict of interest if the Faculty Member, Investigator or his/her immediate family member has a “significant financial interest” (as defined in paragraph III.A, above) that could directly and significantly affect the design, conduct or reporting of NSF-funded research. NSF requires the University to report any conflict the University is unable to manage satisfactorily. As part of the NSF grant proposal process, the University additionally must certify that actual or potential conflicts were, or prior to funding will be, managed, reduced, or eliminated, or disclosed to NSF.

---

3 NSF conflict of interest rules are incorporated into the NSF Award & Administration Guide, Ch. IV.A, “Conflict of Interest Policies,” NSF Proposal and Award Policies and Procedures Guide. See Section V of this Policy for a list of resources providing information on financial conflicts of interest.
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

In order to manage conflicts of interest, the University may impose conditions or restrictions on itself, on the design and conduct of research, and on Faculty Members and Investigators, such as requiring:

1) public disclosure of significant financial interests;
2) monitoring of research by independent reviewers;
3) modification of the research plan;
4) disqualification from participation in all or part of the funded research;
5) divestiture of the significant financial interest; and/or
6) severance of relationships that create actual, potential or reasonably apparent conflicts of interest.

In accordance with NSF requirements, the University will maintain all records of financial disclosures made by Faculty Members and Investigators and actions taken by the University with respect to conflicts of interest for at least three years from the termination or completion of the relevant grant, and will make such records available in appropriate circumstances for inspection and review upon request by the agency.

3. Food and Drug Administration requirements

Faculty Members and Investigators also should be aware of Food and Drug Administration (FDA) regulations (21 CFR Part 54) regarding conflicts of interest, which apply to any applicant who submits a marketing application for a human drug, biological product or device, and who submits clinical studies covered by the regulation. The regulations require the disclosure of conflicts or a certification that no financial conflicts exist.

4. Other requirements

Other sponsors may have specific requirements regarding the disclosure of financial interests. For more information, contact the sponsor or the Office of the Vice President for Research.

IV. PROCEDURES FOR REVIEW

A. Review of disclosure form; management of disclosed conflicts.

1. Faculty Members and Investigators shall supply the annual and ad hoc disclosures required by Section III on the annexed Disclosure Forms, for confidential review by the Administration. Each dean shall forward to the Provost and Executive Vice President a copy of each Disclosure Form submitted by a Faculty Member or Investigator, any related material submitted by a Faculty Member or Investigator, and the dean's recommendation for action.

2. If the dean, with the concurrence of the Provost and Executive Vice President, determines that the conduct disclosed is permissible under this Policy, the Faculty Member or Investigator shall be so informed in writing. Guidance on types of
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

conduct approved shall be provided the Faculty from time to time, without identifying Faculty Members or Investigators who received approval.

3. If the dean or the Provost and Executive Vice President determines that the conduct may present an actual conflict of interest, or reasonably appears to present a significant potential for such a conflict of interest, within the scope of this Policy, conditions or restrictions to manage or prohibit the conflict, agreeable to the Provost and Executive Vice President, may be imposed. Such conditions or restrictions may include, but are not limited to: Public disclosure of significant financial interests; monitoring of research by independent reviewers; modification of the research plan; disqualification from participation in all or part of an externally funded research project; divestiture of significant financial interests; and severance of relationships that create actual or reasonably apparent conflicts of interest.

4. It is not the object of this Policy to discourage outside activities by Faculty and Investigators that present no actual or reasonably apparent conflict of interest within the scope of this Policy. Instead, the review process is designed to allow Faculty Members and Investigators to undertake permissible activities without concern about later criticism, to provide the University accurate information about those Faculty and Investigator activities, and to be fair to all involved.

B. Procedures for resolving disputes about conflicts.

1. If a dean learns from a Faculty Member, Investigator or otherwise of conduct the dean believes presents a significant question under this Policy, the dean should discuss the conduct with the Faculty Member or Investigator; shall relate his or her findings to the Provost and Executive Vice President, and subject to the concurrence of the Provost and Executive Vice President shall advise the Faculty Member or Investigator whether (a) the conduct is permissible under this Policy without conditions or restrictions; (b) may be undertaken subject to conditions or restrictions as described in Section A.3 above; (c) or should cease, subject to further review. If the dean or Provost and Executive Vice President determines that conditions or restrictions should be imposed, the Faculty Member or Investigator shall, as the case may be, cease the conduct, accept the conditions or restrictions agreeable to the Provost and Executive Vice President, or seek review of the matter by the school's Conflicts Consultation Committee.

2. Any member of the University community ("Complainant") may bring directly to the attention of a school's Committee a probative and not frivolous matter alleged to be reportable under this Policy. A Faculty Member or Investigator whose activity has been questioned shall be entitled to know the identity of the person or persons bringing such allegations to the Committee and the full extent of the allegations.

3. A school's Conflicts Consultation Committee, unless otherwise authorized
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

by the Provost and Executive Vice President, shall be composed of at least five Faculty Members of the school, elected, ordinarily annually, by the Faculty of the school. The Committee's function shall be to conduct a hearing if necessary, to make written findings about any disputed facts, and to write a reasoned recommendation as to whether the conduct entails a reportable conflict of interest under this Policy and whether the conduct may be undertaken subject to conditions or restrictions.

4. The dean, the Provost and Executive Vice President, the Complainant, the Faculty Member or the Investigator may consult a member of the Conflicts Consultation Committee informally, with that member's consent, before the matter is referred to it, to discuss whether a given activity would entail a reportable conflict of interest under this Policy and/or what if any conditions or restrictions would be appropriate, but no such informal advice should bind any party to the process described above. The Committee member who has provided such consultation shall not participate in the hearing or decision.

5. The Provost and Executive Vice President shall review the Committee's recommendation, confer with the Dean, and render a formal decision.

6. A Faculty Member or Investigator dissatisfied with the Provost and Executive Vice President's decision may appeal it to the University Conflicts Resolution Panel ("Panel"), which shall be composed of five Faculty Members nominated by the Faculty Senate Executive Committee in consultation with the Provost and Executive Vice President and elected by the Faculty Senate. Members of the Panel shall ordinarily serve for staggered three-year terms.

7. The Panel shall be bound by the factual findings of the school Conflicts Consultation Committee unless in the judgment of the Panel the school Committee clearly failed to consider important facts submitted to it. Ordinarily there should be no need for a hearing before the University Panel and no augmenting of the factual record.

8. A member of the Panel from the school from whose Committee the appeal is taken may not participate in the appeal. No informal or other ex parte communication with members of the Panel shall be permitted as to a matter that has been or may be brought before the Panel.

9. The Panel shall render its report to the affected Faculty Member or Investigator, the dean, and the Provost and Executive Vice President. The conclusion of the Panel shall be forwarded to the Administration for final disposition.

10. To the extent that conduct of Faculty or Investigators who are identified in Section I.D.1. is ultimately determined to be impermissible under this Policy, the Provost and Executive Vice President (or other supervisors, for Investigators)
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

may impose sanctions not inconsistent with the substantive and procedural requirements of the Faculty Code (or other applicable procedures).

11. A Faculty Member or Investigator whose conduct has been ultimately determined to be permissible under this Policy shall be insulated from school or University sanction for that conduct. However, another Faculty Member or Investigator may not rely on an approval that addressed a different Faculty Member's or Investigator’s conduct, as it may have been based on unique circumstances.

Annual Faculty Member and Investigator Financial Interest Disclosure Form

Pursuant to The George Washington University Policy on Conflicts of Interest and Commitment for Faculty and Investigators

The Faculty Senate and the Board of Trustees have approved a University-wide Policy on Conflicts of Interest and Commitment for Faculty and Investigators. The full policy is available at my.gwu.edu/files/policies/ConflictofInterestandcommitment.pdf. The policy requires that each faculty member and investigator complete this form yearly.

The purpose of this form is to assist faculty, investigators, and the University in the identification of potential and actual conflicts of interest and to support compliance with applicable government regulations. Because of the complexities of The George Washington University, it is not unusual for an employee to respond affirmatively to one or more of the following questions. An affirmative response in no way implies that a conflict of interest necessarily exists or, if it does, that it cannot be managed. Please be assured that responses to this questionnaire may be submitted on a confidential basis and will be held strictly in confidence. Responses requiring further clarification will be brought to your immediate attention.

Faculty Member or Investigator Name: __________________________

Department/Unit: __________________________

College/Unit: __________________________

PART I (To be completed by all Faculty and Investigators)

A. Definitions

The term significant financial interest means

(1) any stock, stock option, or similar ownership interest in an outside entity by the Faculty Member or Investigator that, alone or together with interests of immediate family members, is valued at least at the lesser of $10,000 or five percent of the total ownership interests in the outside entity, excluding any interest arising solely by reason of investment by a mutual, pension, or other institutional investment fund over which neither the Faculty Member, Investigator nor any immediate family member exercises control; or
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT FOR FACULTY AND INVESTIGATORS

(2) receipt, individually or collectively by a Faculty Member, Investigator and immediate family members of, or the right or expectation to receive, income, whether in the form of a fee (e.g., consulting), salary, allowance, forbearance, forgiveness, interest in real or personal property, dividend, royalty derived from the licensing of technology or other processes or products, rent, capital gain, real or personal property, or any other form of compensation, or any combination thereof, that over the last 12 months exceeded or over the next 12 months is expected to exceed $10,000 in income of all types; or

(3) that the Faculty Member, Investigator, immediate family member or close family member provides services as a principal investigator for, or holds a management position in, an outside entity; or

(4) that a close family member holds an ownership interest in an outside entity or has a right to receive income from an outside entity, if such ownership interest or right to receive income would be treated as a “significant financial interest” with respect to a Faculty Member or Investigator under (1) or (2), above.

Significant financial interest does not include: (1) salary, royalties or other remuneration from the University; (2) income from seminars, lectures, or teaching engagements sponsored by public or non-profit entities; or income from service on advisory committees or review panels for public or non-profit entities.

The George Washington University (and University) means The George Washington University and any entity owned in whole or in part, directly or indirectly, or controlled by the University, including the Medical Faculty Associates (MFA) and any joint venture.

Gifts do not include honoraria (e.g., remuneration or gifts-in-kind) received in connection with (1) participation in seminars, lectures, or teaching engagements sponsored by public or non-profit entities or (2) service on advisory committees or review panels for public or non-profit entities.

Immediate family member includes an employee’s spouse/domestic partner and dependent children.

Close family member includes an employee’s non-dependent children, as well as father, mother, sisters and brothers of the employee and the employee’s spouse/domestic partner.

Material conflict of interest means a conflict of interest that has the potential (i) to influence a person’s decisions or conduct or (ii) to have a non-trivial impact on the financial situation of a person or an entity in which that person or an immediate family member has a significant financial interest.

To your knowledge means your actual knowledge or knowledge that you should reasonably be expected to have based on information that has been provided to you or is in your possession. To your knowledge does not imply a duty to make inquiries to discover facts.
that are not known to you or to obtain information that has not been provided to you or is not in your possession.

**B. Certification as to Employee and Immediate Family Members**

1. Do you have, or does any immediate family member have, any of the relationships, transactions, activities, or financial interests described below in subparagraphs (a) through (h)?

   (a) An outside entity in which you have or an immediate family member has a significant financial interest has made, or will make, a gift to The George Washington University of cash or property that will be under your control or will directly support your teaching or research activities.

   (b) You have or an immediate family member has a significant financial interest in the proposed or current sponsor of, or a proposed or current subcontractor, vendor, or collaborator for, a sponsored project involving The George Washington University.

   (c) You have an actual or proposed technology licensing or commercialization arrangements with an outside entity in which you have or an immediate family member has a significant financial interest and where those arrangements might reasonably be perceived as involving or creating the appearance of a material conflict of interest with your appointment at The George Washington University.

   (d) You are or will be personally involved in, or you have or will have the ability to influence the formation or implementation of, a transaction in which The George Washington University, directly or indirectly, is procuring or will procure property, goods or services from an outside entity in which you have or an immediate family member has a significant financial interest.

   (e) The design, conduct or reporting of your current or proposed externally funded research at The George Washington University does impact or will impact a significant financial interest that you hold or an immediate family member holds in an outside entity.

   (f) You are or an immediate family member is a director, officer, sole owner, partner, employee, agent, consultant, or advisor of a business enterprise that to your knowledge supplies The George Washington University with any property, goods, or services.

   (g) You have or an immediate family member has a significant financial interest in a business enterprise (excluding any investment representing less than 1 percent of the total equity of a publicly traded entity) that to your knowledge supplies The George Washington University with any property, goods, or services.
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

(h) You are a director, officer, sole owner, partner, employee, agent, consultant, or advisor of, or you have a significant financial interest in, a business enterprise (other than The George Washington University) that to your knowledge engages in the business of higher education or the delivery of patient care services.

Yes ____________________ No ____________________

2. In the past 12 months, to the best of your knowledge, have you or has any immediate family member received a loan of money, property, or services in the amount of $250 or more (excluding any loan from a bank or other financial institution), or received a gift of money, property, services, or out-of-home entertainment with a value exceeding $100, from a business enterprise that to your knowledge supplies property, goods, or services to The George Washington University?

Yes ____________________ No ____________________

3. In the past 12 months, to the best of your knowledge, have you received a loan of money, property, or services in the amount of $250 or more (excluding a loan from a bank or other financial institution), or received a gift of money, property, services, or out-of-home entertainment with a value exceeding $100, from a business enterprise (other than The George Washington University) that engages in the business of higher education or patient care services?

Yes ____________________ No ____________________

4. Do you have, or does any immediate family member have, any other relationships, transactions, activities, or financial interests that might reasonably be perceived as involving, or creating the appearance of, a material conflict of interest with your appointment at The George Washington University?

Yes ____________________ No ____________________

If your answer to any of the above Questions 1-4 is Yes, please give details, including identifying the business enterprise(s) and describing your or your immediate family member’s relationship to it, as well as the approximate value of any income or financial interest, loan or gift. (Where more space is required for your answers, please attach additional pages to this questionnaire.)

POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

C. Certification as to Employee and Close Family Members

1. To your knowledge, do you have or does any close family member have any of the relationships, transactions, activities, or financial interests described below in subparagraphs (a) through (g)?

   (a) An outside entity in which a close family member has a significant financial interest has made, or it will make, a gift to The George Washington University of cash or property that will be under your control or will directly support your teaching or research activities.

   (b) A close family member has a significant financial interest in the proposed or current sponsor of, or a proposed or current subcontractor, vendor, or collaborator for, a sponsored project involving The George Washington University.

   (c) You have an actual or proposed technology licensing or commercialization arrangements with an outside entity in which a close family member has a significant financial interest and where those arrangements might reasonably be perceived as involving or creating the appearance of a material conflict of interest with your appointment at The George Washington University.

   (d) You are or will be personally involved in, or you have or will have the ability to influence the formation or implementation of, a transaction in which The George Washington University is procuring or will procure property, goods, or services from an outside entity in which a close family member has a significant financial interest.

   (e) The design, conduct or reporting of your current or proposed externally funded research at The George Washington University does impact or will impact a significant financial interest that a close family member holds in an outside entity.

   (f) A close family member is a director, officer, sole owner, partner, employee, agent, consultant, or advisor of a business enterprise that to your knowledge supplies The George Washington University with any property, goods, or services.

   (g) A close family member has a significant financial interest in a business enterprise (excluding any investment representing less than 1 percent of the total equity of a publicly traded entity) that to your knowledge supplies The George Washington University with any property, goods, or services.

   Yes ___________________ No ___________________

2. In the past 12 months, to your knowledge, has a close family member received a loan of money, property, or services in the amount of $250 or more (excluding any loan from a bank or other financial institution), or received a gift of money, property, services, or out-of-home entertainment with a value exceeding $100, from a business enterprise that to your knowledge supplies The George Washington University with any property, goods, or services?
3. To your knowledge, does a close family member have any other relationships, transactions, activities, or financial interests connected to The George Washington University that might reasonably be perceived as involving, or creating the appearance of, a material conflict of interest with your appointment at The George Washington University?

Yes ___________________ No _____________________

If your answer to any of the above Questions 1-3 is Yes, please give details, including identifying the business enterprise(s) and describing your close family member’s relationship to it, as well as the approximate value of any income or financial interest, loan or gift. (Where more space is required for your answers, please attach additional pages to this questionnaire.)

Proposal-Specific Investigator Financial Interest Disclosure Questionnaire

Pursuant to The George Washington University Policy on Conflicts of Interest and Commitment for Faculty and Investigators

The Faculty Senate and the Board of Trustees have approved a University-wide Policy on Conflicts of Interest and Commitment for Faculty and Investigators. The full policy is available at my.gwu.edu/files/policies/ConflictofInterestandcommitment.pdf. Pursuant to the policy, persons responsible for the design, conduct, or reporting of University sponsored programs (hereinafter “Investigators”) must review the Policy and Appendix B, and complete the one page disclosure form found at the end of this Appendix for each proposal submitted for external funding.

The purpose of this questionnaire is to assist faculty, Investigators, and the University in the identification and management of potential and actual conflicts of interest and to support compliance with applicable government regulations. Because of the complexities of The George Washington University, it is not unusual for an employee to respond affirmatively to one or more of the following questions. An affirmative response in no way implies that a conflict of interest necessarily exists or, if it does, that it cannot be managed.

The term significant financial interest means

(1) any stock, stock option, or similar ownership interest in an outside entity by the Faculty Member or Investigator that, alone or together with interests of immediate family members, is valued at least at the lesser of $10,000 or five percent of the total ownership interests in the outside entity, excluding any interest arising solely by reason of investment by a mutual, pension, or other institutional investment fund over which neither the Faculty Member, Investigator nor an immediate family member exercises control; or

(2) receipt, individually or collectively by a Faculty Member, Investigator and immediate family members of, or the right or expectation to receive, income, whether in the form of a fee (e.g., consulting), salary, allowance, forbearance, forgiveness, interest in real or personal property, dividend, royalty derived from the licensing of technology or other processes or products, rent, capital gain, real or personal property, or any other form of compensation, or any combination thereof, that over the last 12 months exceeded or over the next 12 months is expected to exceed $10,000 in income of all types; or

(3) that the Faculty Member, Investigator, immediate family member or close family member provides services as a principal investigator for, or holds a management position in, an outside entity; or
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

(4) that a close family member holds an ownership interest in an outside entity or has a right to receive income from an outside entity, if such ownership interest or right to receive income would be treated as a “significant financial interest” with respect to a Faculty Member or Investigator under (1) or (2), above.

Significant financial interest does not include: (1) salary, royalties or other remuneration from the University; (2) income from seminars, lectures, or teaching engagements sponsored by public or non-profit entities; or income from service on advisory committees or review panels for public or non-profit entities.

The George Washington University (and University) means The George Washington University and any entity owned in whole or in part, directly or indirectly, or controlled by the University, including the Medical Faculty Associates (MFA) and any joint venture.

Gifts do not include honoraria (e.g., remuneration or gifts-in-kind) received in connection with (1) participation in seminars, lectures, or teaching engagements sponsored by public or non-profit entities or (2) service on advisory committees or review panels for public or non-profit entities.

Immediate family member includes an Investigator’s spouse/domestic partner and dependent children.

Close family member includes an Investigator’s non-dependent children, as well as father, mother, sisters and brothers of the Investigator and the Investigator’s spouse/domestic partner.

To your knowledge means your actual knowledge or knowledge that you should reasonably be expected to have based on information that has been provided to you or is in your possession. To your knowledge does not imply a duty to make inquiries to discover facts that are not known to you or to obtain information that has not been provided to you or is not in your possession.

B. Questions as to Investigator and Immediate Family Members

1. Do you have, or does any immediate family member have, any of the relationships, transactions, activities, or financial interests described below in subparagraphs (a) through (g)?

(a) An outside entity in which you have or an immediate family member has a significant financial interest has made, or will make, a gift to The George Washington University of cash or property that will be under your control or will directly support this sponsored project.

(b) You have or an immediate family member has a significant financial interest in the proposed or current sponsor of, or a proposed or current subcontractor, vendor, or collaborator for, this sponsored project.
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

(c) You have or an immediate family member has an actual or proposed technology licensing or commercialization arrangement with the proposed or current sponsor of, or a proposed or current subcontractor, vendor, or collaborator for, this sponsored project.

(d) You are or will be personally involved in, or you have or will have the ability to influence the formation or implementation of, a transaction to procure property, goods, or services for this sponsored project from an outside entity in which you have or an immediate family member has a significant financial interest.

(e) The design, conduct or reporting of this sponsored project does impact or will impact a significant financial interest that you hold or an immediate family member holds in an outside entity.

(f) You are or an immediate family member is a director, officer, sole owner, partner, employee, agent, consultant, or advisor of a business enterprise that to your knowledge supplies or will supply The George Washington University with any property, goods, or services for this sponsored project.

(g) You have or an immediate family member has a significant financial interest in a business enterprise that to your knowledge supplies or will supply The George Washington University with any property, goods, or services for this sponsored project.

2. In the past 12 months, to the best of your knowledge, have you or has any immediate family member received a loan of money, property, or services in the amount of $250 or more (excluding any loan from a bank or other financial institution), or received a gift of money, property, services, or out-of-home entertainment with a value exceeding $100, from:
   (a) a business enterprise that to your knowledge supplies property, goods, or services to The George Washington University, or
   (b) a business enterprise (other than The George Washington University) that engages in the business of higher education or patient care services, or
   (c) the sponsor of, or a subcontractor, vendor, or collaborator for, this sponsored project?

3. Do you have or does any immediate family member have any other relationships, commitments, or activities that might reasonably be perceived as involving, or creating the appearance of, a conflict of interest with respect to your involvement in this sponsored project?

   If your answer to any of the above Questions 1-3 is Yes, please give details, including identifying the business enterprise(s) and describing your or your immediate family member’s relationship to it, as well as the approximate value of any income or financial interest, loan or gift. (Where more space is required for your answers, please attach additional pages to this questionnaire.)

C. Questions as to Investigator and Close Family Members
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

1. To your knowledge, do you have or does any close family member have any of the relationships, transactions, activities, or financial interests described below in subparagraphs (a) through (f)?

   (a) An outside entity in which a close family member has a significant financial interest has made, or will make, a gift to The George Washington University of cash or property that will be under your control or will directly support this sponsored project.

   (b) A close family member has a significant financial interest in the proposed or current sponsor of, or a proposed or current subcontractor, vendor, or collaborator for, this sponsored project.

   (c) You are or will be personally involved in, or you have or will have the ability to influence the formulation or implementation of, a transaction to procure property, goods, or services for this sponsored project from an outside entity in which a close family member has a significant financial interest.

   (d) The design, conduct or reporting of this sponsored project does impact or will impact a significant financial interest that a close family member holds in an outside entity.

   (e) A close family member has an actual or proposed technology licensing or commercialization arrangement with the proposed or current sponsor of, or a proposed or current subcontractor, vendor, or collaborator for, this sponsored project.

   (f) A close family member is a director, officer, sole owner, partner, employee, agent, consultant, or advisor of, or has a significant financial interest in, a business enterprise that to your knowledge supplies or will supply The George Washington University with any property, goods, or services for this sponsored project.

2. In the past 12 months, to your knowledge, has a close family member received a loan of money, property, or services in the amount of $250 or more (excluding any loan from a bank or other financial institution), or received a gift of money, property, services, or out-of-home entertainment with a value exceeding $100, from: (a) a business enterprise that to your knowledge supplies property, goods, or services to the George Washington University, or (b) the sponsor of, or a subcontractor, vendor, or collaborator for, this sponsored project?

3. To your knowledge, does a close family member have any other relationships, transactions, activities, or financial interests that might reasonably be perceived as involving, or creating the appearance of, a conflict of interest with respect to your involvement in this sponsored project?

POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

Appendix C

Additional Requirements for PHS Research Proposals and Awards

This Appendix C to the Policy sets forth certain requirements that apply to PHS research proposals and awards (including grants, cooperative agreements, and contracts). These requirements supplement any Investigator or University obligations under the Policy itself. To the extent of any conflict between a provision of the Policy and a provision of this Appendix C, the provision of this Appendix C shall govern.

Definitions

For purposes of this Appendix C, the following definitions apply.

“Institutional Responsibilities” means an Investigator’s professional responsibilities on behalf of the University, which may include for example: activities such as research, research consultation, teaching, professional practice, University committee memberships, and service on panels such as Institutional Review Boards or data and safety monitoring boards.

“Investigator” means the project director or principal Investigator and any other person, regardless of title or position, who is responsible for the design, conduct or reporting of research funded by PHS, or proposed for funding by PHS, which may include, for example, consultants or collaborators.

“PHS Awarding Component” means the organizational unit within PHS that funds the research that is subject to this Appendix C.

“Research” means a systematic investigation, study, or experiment designed to develop or contribute to generalizable knowledge relating broadly to public health, including behavioral and social-sciences research. The term encompasses basic and applied research (e.g., a published article, book or book chapter) and product development (e.g., a diagnostic test or drug). The term includes any such activity for which research funding is available from a PHS Awarding Component through a grant, cooperative agreement, or contract, whether authorized under the PHS Act or other statutory authority, such as a research grant, career development award, center grant, individual fellowship award, infrastructure award, institutional training grant, program project, or research resources award.

“Significant Financial Interest” means, in addition to the interests described in Section III.A of the Policy, a financial interest consisting of one or more of the following interests of the

---

2 Nothing in this Appendix C imposes an obligation beyond that required by the Policy to disclose the following types of financial interests: (1) salary, royalties, or other remuneration paid by the University to the Investigator if the Investigator is currently employed or otherwise appointed by the University, including intellectual property rights assigned to the University and agreements to share in royalties related to such rights; (2) income from
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

Investigator (and those of the Investigator’s spouse/domestic partner and dependent children) that reasonably appears to be related to the Investigator’s Institutional Responsibilities:

(a) With regard to any publicly traded entity, a Significant Financial Interest exists if the value of any remuneration received from the entity in the twelve months preceding the disclosure and the value of any equity interest in the entity as of the date of disclosure, when aggregated, exceeds $5,000. For purposes of this definition, remuneration includes salary and any payment for services not otherwise identified as salary (e.g., consulting fees, honoraria, paid authorship); equity interest includes any stock, stock option, or other ownership interest, as determined through reference to public prices or other reasonable measures of fair market value;

(b) With regard to any non-publicly traded entity, a Significant Financial Interest exists if the value of any remuneration received from the entity in the twelve months preceding the disclosure, when aggregated, exceeds $5,000, or when the Investigator (or the Investigator’s spouse/domestic partner or dependent children) holds any equity interest (e.g., stock, stock option, or other ownership interest);

(c) Intellectual property rights and interests (e.g., patents, copyrights), upon receipt of income related to such rights and interests in the twelve months preceding the disclosure; or

(d) The occurrence of any reimbursed or sponsored travel in the twelve months preceding the disclosure.

Financial Disclosures by Investigators

In addition to the disclosure obligations set forth in Section III.B and C of the Policy, each Investigator planning to participate in PHS-funded research must disclose to the dean or the dean’s designee the Investigator’s Significant Financial Interests (and those of the Investigator’s spouse/domestic partner and dependent children) no later than the time of application for the PHS-funded research.

Each Investigator participating in PHS-funded research must update his or her disclosure annually during the period of the award to reflect any information not disclosed initially or updates to any previously-disclosed Significant Financial Interests (e.g., the updated value of

---

3 A financial interest is anything of monetary value, whether or not the value is readily ascertainable.
4 Sponsored travel means travel that is paid on behalf of the Investigator and not reimbursed to the Investigator (so that the exact monetary amount may not be readily determined). The disclosure of reimbursed or sponsored travel must include, at a minimum, the purpose of the trip, the identity of the sponsor/organization, the destination, and the duration.
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

previously disclosed equity interests). Investigators are also required to report a new Significant Financial Interest within 30 days of discovering or acquiring the interest.

Review and Management of Financial Disclosures

Investigators’ disclosures of Significant Financial Interests under this Appendix C must be reviewed by the dean or the dean’s designee. Such review shall include a determination of whether an Investigator’s Significant Financial Interest is related to a PHS-funded research project at the University and, if so, whether the Significant Financial Interest constitutes a financial conflict of interest.

An Investigator’s Significant Financial Interest is related to PHS-funded research when (a) the Significant Financial Interest could be affected by the PHS-funded research or (b) the Significant Financial Interest is in an entity whose financial interest could be affected by the research.

A financial conflict of interest exists when an Investigator’s Significant Financial Interest could directly and significantly affect the design, conduct, or reporting of PHS-funded research. The University will take such actions as are necessary to manage financial conflicts of interest in PHS-funded research, including, prior to the expenditure of PHS award funds, development and implementation of a management plan that specifies the actions that have been or will be taken to manage, reduce or eliminate the financial conflict of interest. Management plans must be approved by the dean (or designee) and the Provost and Executive Vice President.

Whenever, in the course of an ongoing PHS-funded research project, a Significant Financial Interest is disclosed by a new Investigator or an existing Investigator discloses a Significant Financial Interest not previously reported, or it comes to the attention of University officials that a Significant Financial Interest related to the PHS-funded research was not disclosed in a timely manner by an Investigator, the interest shall be reviewed within 60 days and a decision shall be made as to whether the Significant Financial Interest constitutes a financial conflict of interest. If the University determines that a financial conflict of interest exists, the University shall implement, on at least an interim basis, a management plan that shall specify the actions that have been, or will be taken, to manage the Financial Conflict of Interest.

Financial Conflict of Interest Reports by the University

Prior to the expenditure of any funds under a PHS-funded research award, the University is required to submit to the PHS Awarding Component a financial conflict of interest report ("Report") regarding any Significant Financial Interests related to the PHS-funded research that the University finds to be conflicting and implement a management plan as set forth in this

5 Examples of management strategies include but are not limited to: (i) Public disclosure of financial conflicts of interest (e.g., when presenting or publishing the research); (ii) For research projects involving human subjects research, disclosure of financial conflicts of interest directly to participants; (iii) Appointment of an independent monitor capable of taking measures to protect the design, conduct, and reporting of the research against bias resulting from the financial conflict of interest; (iv) Modification of the research plan; (v) Change of personnel or personnel responsibilities, or disqualification of personnel from participation in all or a portion of the research; (vi) Reduction or elimination of the financial interest (e.g., sale of an equity interest); or (vii) Severance of relationships that create financial conflicts.
Appendix C. In addition, during the course of a PHS-funded research project, the University will provide the PHS Awarding Component with a Report, and implement a management plan, within 60 days of identifying any Significant Financial Interest that the University identifies as conflicting subsequent to its initial Report.  

For any financial conflict of interest previously reported by the University to PHS, the University shall provide updated Reports annually for the duration of the PHS-funded research project (including extensions with or without funds) in the time and manner specified by the PHS Awarding Component.  

Any required Reports shall be submitted to the PHS Awarding Component by the Office of the Vice President for Research.  

**Retrospective Reviews**  

If the University identifies a Significant Financial Interest that was not disclosed timely by the Investigator or, for whatever reason, was not previously reviewed by the University during an ongoing PHS-funded research project (e.g., was not timely reviewed or reported by a subrecipient), the University shall, within sixty days: review the Significant Financial Interest, determine whether it is related to PHS-funded research, determine whether a financial conflict of interest exists, and if so, implement, on at least an interim basis, a management plan that shall specify the actions that have been, and will be, taken to manage such financial conflict of interest going forward.  

In addition, whenever a financial conflict of interest in PHS-funded research is not identified or managed in a timely manner, the University must, within 120 days of the determination of noncompliance, complete a retrospective review of the Investigator’s activities and the PHS-funded research project to determine whether any PHS-funded research, or portion thereof, conducted during the time period of noncompliance, was biased in the design, conduct, or reporting of such research. The University is required to document the review in accordance with PHS requirements.  

Based on the results of the retrospective review, the University will, if appropriate, update the previously submitted Reports affected by the review, specifying the actions that will be taken to manage the financial conflict of interest going forward. If the retrospective review determines that the research was biased in its design, conduct or reporting, the University, through the Office of the Vice President for Research, will promptly notify and submit a mitigation report to PHS.  

Furthermore, in any case in which the U.S. Department of Health and Human Services determines that a PHS-funded project of clinical research evaluating the safety or effectiveness

---

6 The University is not required to submit a financial conflict of interest report to PHS if it identifies and eliminates a financial conflict of interest prior to the expenditure of PHS-awarded funds.  

7 For National Institutes of Health (“NIH”) grants and cooperative agreements, this reporting is submitted through the electronic Research Administration (eRA) Commons Financial Conflict of Interest Module and is due at the same time as the required NIH annual progress report, multi-year progress report, if applicable, or at the time of extension.
of a drug, medical device or treatment has been designed, conducted or reported by an Investigator with a conflicting interest that was not managed or reported by the University as required by this Appendix C, the University shall require the Investigator to disclose the conflicting interest in each public presentation of the results of the research and to request an addendum to previously published presentations.

**Maintenance and Disclosure of Records**

In accordance with PHS requirements, the University must maintain records relating to all financial disclosures made by Investigators engaged in PHS-funded research, as well as the University’s review of, and response to, such disclosures (whether or not a disclosure resulted in the University’s determination of a financial conflict of interest) and all actions taken under the Policy and this Appendix C (including any retrospective review, if applicable) for at least three years from submission of the final expenditures report for a grant or cooperative agreement and three years after final payment for a contract, or for such longer periods as prescribed in applicable regulations, and will make such records available in appropriate circumstances for inspection and review upon request by duly authorized agencies.

In addition, the University, through the Office of the Provost and Executive Vice President, will provide a written response to a requestor within five business days of receiving a request for information concerning a Significant Financial Interest held by a Project Director/Principal Investigator and any other person identified by the University to PHS as senior/key personnel if the University has determined that the Significant Financial Interest constitutes a financial conflict of interest in PHS-funded research.  

**Subgrantees, Contractors, and Collaborators**

If the University carries out PHS-funded research through a subrecipient (e.g., subgrantees, contractors, or collaborators), the University, through the Office of the Vice President for Research, will include in its written agreement with the subrecipient a statement as to whether the financial conflicts of interest policy of the University or that of the subrecipient applies to the subrecipient’s Investigators.

If the subrecipient’s financial conflicts of interest policy applies to subrecipient Investigators, the subrecipient shall certify as part of the agreement that its policy complies with the PHS

---

8 Per the PHS regulations, the information that the Office of the Provost and Executive Vice President will make available in the written response will include the following:

- The Investigator’s name
- The Investigator’s title and role with respect to the research project
- The name of the entity in which the Significant Financial Interest is held
- The nature of the Significant Financial Interest
- The approximate dollar value of the Significant Financial Interest (dollar ranges are permissible: $0-$4,999; $5,000-$9,999; $10,000-$19,999; amounts between $20,000-$100,000 by increments of $20,000; amounts above $100,000 by increments of $50,000) or a statement that the interest is one whose value cannot be readily determined through reference to public prices or other reasonable measures of fair market value.

The written response will note that the information provided is current as of the date of the correspondence and is subject to updates consistent with the PHS regulations. The information provided to the requestor will remain available for three years from the date that the information was most recently updated.

31
POLICY ON CONFLICTS OF INTEREST AND COMMITMENT
FOR FACULTY AND INVESTIGATORS

regulations. If the subrecipient cannot make such a certification, the University’s policy and this Appendix C will apply to subrecipient Investigators to the extent necessary for compliance with the PHS regulations.

If the subrecipient’s financial conflict of interest policy applies, the University, through the Office of the Vice President for Research, will include in the subrecipient agreement time periods for the subrecipient to report all identified financial conflicts of interests to the University. Such time periods must provide the University with sufficient time to review the reports and make timely reports to PHS, as necessary.

If subrecipient Investigators are subject to the University’s policy, the subrecipient agreement will specify time periods for the subrecipient to submit subrecipient Investigators’ disclosures of Significant Financial Interests to the University so that the University has sufficient time to review the disclosures and comply timely with its review, management, and reporting obligations under this Policy.

Notification to PHS

The University, through the Office of the Vice President for Research, will promptly notify the PHS Awarding Component if failure of an Investigator to comply with the Policy or this Appendix C or with a management plan provided for hereunder has biased the design, conduct or reporting of PHS-funded research.

Training

Investigators engaged in PHS-funded research are required to complete training regarding their responsibilities under the Policy and this Appendix C prior to engaging in any PHS-funded research project and at least every four years. Investigators must complete such training immediately if they are new to the University, if the University revises the Policy, Appendix C, or its conflict of interest procedures in a manner that affects the requirements of Investigators, or if the University finds that the Investigator is not in compliance with the Policy or this Appendix C or a management plan adopted thereunder.

Our main agenda item was the vote on the nominees for honorary degrees at Commencement in May 2013.

There are 5 voting members on this committee as per faculty senate records: Professors Castleberry, Ingraham, Ismail, Khamooshi, and Rehman. The Committee reviews the nominations and recommends whether the nominee MEETS THE CRITERIA for an honorary degree at GW. This is NOT A VOTE on whether they should get the honorary degree or not, but rather if they meet the criteria (i.e. are they eligible).

A total of 8 nominees were forwarded to the Committee by Dianne Martin (Vice Provost for Faculty Affairs). The committee forwarded a list of nominees that met the criteria back to Dianne Martin for transmission to the Committee on Academic Affairs of the Board of Trustees. Ultimately, the University Board of Trustees selected:

1) 23rd Commandant of the United States Coast Guard, admiral Thad Allen,
2) International education leader Harriet Mayor Fulbright,
3) Distinguished actor and activist Kerry Washington (Commencement Speaker).

SELECTION CRITERIA:

1) What is the nature of the nominee's professional achievements? Is the nominee at the summit of his/her career? In general, "summit" has nothing to do with the age of the candidate (a scientist is generally at the summit of her career when she's in her 60's or 70's while a professional athlete is generally at the summit of his career when he's in his 20's or 30's) but with the general level of achievement.

2) Has the nominee made a contribution to the public good outside of his/her profession? This is a very broad category. Generally, the nominee must have done some sort of public service (Darrell Green, a former member of the Washington Redskins, started an organization to help underprivileged children improve their reading skills) but any sort of contribution will do (William H. Rehnquist, the late Chief Justice of the Supreme Court, was an amateur historian who wrote several books on the Court's history).

3) Does the nominee have a connection to GW? This is also a broad category. Any connection--from being an alumnus to giving one lecture several years ago--will do.

To be sent forward from the Senate Committee, a nominee must score highly in two of the above three categories. What this really means is that we take it for granted that everyone will score highly on professional achievement (#1) and we'd like them to score highly on public service (#2); depending on the make-up of the Senate Committee, a good GW connection (#3) often doesn't count for much if evidence of public service (#2) is lacking.

The only people who can't receive an honorary degree are current faculty, administrators, and trustees. Once these people become former faculty, administrators, and trustees, they become eligible (if nominated).

All votes are confidential. There is no restriction on the number of nominees that can be deemed to have successfully met the criteria.

Scheherazade Rehman, Committee Chair
