

**THE CENTER FOR INTERNATIONAL
SCIENCE AND TECHNOLOGY POLICY**
THE ELLIOTT SCHOOL OF INTERNATIONAL AFFAIRS

Graduate Research Assistant Position

The Institute for International Science and Technology Policy (IISTP) recently secured a Nuclear Science and Security Research grant, part of a consortium of seven other universities, led by the University of California, Berkeley, from the National Nuclear Security Administration (NNSA).

Currently, IISTP is looking to hire a GRA (a pre-doctoral fellow) to assist with research on the NNSA grant. The GRA's tasks will be to assist in research on solutions to the problem of nuclear waste disposal in Japan, and the associated proliferation risks posed by Japan's reprocessing-only strategy.

Job Description Summary

- Plans and develops research methods and techniques within the framework of the NNSA grant project
- Maintains accurate records of research findings and analyzes results
- Assists and sometimes leads data collections efforts associated with the NNSA grant
- Writes topic specific reports of studies and research conducted, and presents results at relevant events
- Attends and contributes to relevant internal and external meetings, seminars, and conferences
- Assists in grant related event organization and execution
- Performs other related duties as assigned. The omission of specific duties does not preclude the PI, Allison Macfarlane, from assigning duties that are logically related to the position

Minimum qualifications

- Should be a Ph.D. candidate who has passed their qualifying exams
- ABD students preferred
- Must be a U.S. citizen

Required Documentation

- Cover Letter
- Resume
- Writing Sample
- 2-3 references
