Asian Affairs: An American Review provides deep insight into developments in politics, economics, security, and international relations, especially between Asian nations and the United States. Scholars, educators, policymakers, government officials, and business executives can rely on its thoroughly researched articles. Recent articles examine China-Taiwan relations, Pakistan's foreign policy, and the potential for an exchange-rate mechanism for East Asian currencies. Expert book reviews keep readers informed on current literature in the field.

The Hernandez family found a way out of poverty – it started by coming in to a family literacy program. No surprise, given that a majority of adults who learn with their kids improve in everything from language skills to getting their GED. Together, they learn “literacy” isn’t just about reading and writing, it’s about developing skills – skills they use for a better life. Know a family we can help? Or would you like to help?
