Uterine Contractions, Crocodilia, Cancer, and Friends... Oh My!!!

Dr. Angela Gallegos
January 16th, 2014
Summer Program for Women in Mathematics 15th Reunion!
What is a Research Program?
How do projects come about?
Project 1: Uterine Contractions!
Uterine Contractions!
Uterine Contractions!
Uterine Contractions!
Uterine Contractions!
Uterine Contractions!
Uterine Contractions!
Uterine Contractions! The saga continues!!!
Uterine Contractions: Persistence
Project 2: Cancer Immunotherapy
Cancer Modeling
Cancer Modeling
Cancer Modeling
Cancer Modeling
Cancer Modeling:
Chance and Openness
Project 3: Crocodilian Population Age-Structured Model
Crocodilian Modeling
Crocodilian Modeling
Crocodilian Modeling
Crocodilian Modeling
Crocodilian Modeling: Panic (and commitment 😊)!
Other ways...

• Network!
• Talk to your friends!
• Send emails!
• Talk to people who give interesting talks!
• Write to people who have interesting papers!
• Teach a course or propose a conference session!
• Follow your interests... be where opportunities for you might be!

• Write to people who have interesting papers! (Network!)
• Teach a course or propose a conference session! (Network!)
• Follow your interests... be where opportunities for you might be!
Where to publish?
Great Place to Publish!
After all that?
Maintenance.....
Maintenance.....
Maintenance.....
Some ways to maintain...

• “Collaborate, collaborate, collaborate” 😊

• Strictly scheduling some time *just for your research*

• Employing colleagues/friends to help you stick to your plan

• Volunteering to give talks 😊
Some ways to maintain...
